Art Unit: 2854

Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-12, 18-21, 33-43, 49-63 and 68-72, drawn to an embossing roll or system with specific structure on removably mounting an embossing sleeve on a roller core using pressurized air to facilitate the operation, classified in class 101, subclass 382.1.
- II. Claims 22 and 25-30, drawn to a method of forming an embossing roll using a three dimensional laser engraving device, classified in class 101, subclass 483.

Inventions II and I are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the product as claimed can be made by a materially different process such as chemical etching or machining. Additionally, the process as claimed can be used to make a materially different embossing roll which does not require the use of pressurized air to mount its sleeve.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, recognized divergent subject matter, and different field of search, restriction for examination purposes as indicated is proper.

Art Unit: 2854

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ren Yan whose telephone number is (703) 308-0978. The examiner can normally be reached on weekdays from 9:30AM to 6:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ed. Burr, can be reached on (703) 308-0979. The fax phone number for the organization where this application or proceeding is assigned is (703) 308-2864.
